

EARLY MATH WEBINAR

DREME TE: Early Math Resources for Teacher Educators

We invite all **early childhood college faculty in California** to join this free, interactive webinar.

**Friday Sept 11, 2020
12:30-2:30p Pacific**

DREME | TE

Early Math Resources for Teacher Educators

DREME TE is a free, online collection of research-based resources that teacher educators can use in a variety of ways to support prospective preschool teachers' understanding of early math and children's mathematical thinking.

Learn more about these early math resources and engage with other college faculty in CA to discuss how these resources (videos, vignettes, handouts, etc.) can be used across a range of early childhood college courses.
