00:38:06 Araceli Talavera: Emotional

00:38:22 Claudia Sanchez: The importance of connecting to students at the human level can definitely make a difference I. Education- it seems like the social emotional gets left out of education after I elementary and it's so needed as that emotional being changes through school years.

00:38:50 Shaika Mohamed Razick: It is a great video which shows the deeper thoughts of teenagers. This video represents the significance of giving space and listening to their inner thoughts and mind. Because sometimes teenage stage is tough and sometimes confused state of mind. So it is really important to give space to listen to them, support and encourage them.
