01:25:38 Kati Morgan-Cerritos: Hi everyone, just wanted to say go after your dreams, work hard and try new things. I know it's sometimes hard to believe in yourself, especially when teaching is sometimes looked down upon because it doesn't make the most money. I have been told that and it has motivated me to want to change that perspective everyone has on teaching. But something that my mentor recently shared with me, I would like to share with all of you. Her advice was making an impact on a child's life will get you through those hard days. Money only goes so far. It's easy to get through the good days but those hard days truly test you. Your passion will carry you through and your own unique experiences will help you impact the lives of so many. Good luck to everyone!

01:27:23 Lilly G Martinez: I'm proud of all of you!! :)

01:29:25 Lilly G Martinez: Congratulations!

01:30:19 Victorine Brown: Hello everyone, my name is Victorine Brown. I am HOH . When I was younger, I was told that I would never be a teacher because of my disability. Like how

would I understand children or would I be able to hear them. Other than my mom, I never had support. It was really hurtful. But ever since coming to Cerritos College, I've had so much supportive in my life and it has been great. This is my last semester and I am on my way to a university to be the best teacher I can be.

- 01:31:09 Catherine Miller: I have to leave for a meeting, but you all are amazing! I am so excited for the future of education knowing it is in your capable hands. Big hugs to Stephanie and Andy, my 2 star students.

- 01:53:02 Darneanna- Cerritos Success Coach: @Thao this is a great question and I will answer this for you!

Misti Lindquist, Certified Child Life Specialist

Most hospital staff are familiar with Child Life services from the number of toys and activities displayed in patients' rooms but are not fully aware of the Child Life Specialist's scope of practice: "Child Life Specialists play with a purpose." This session will help attendees understand the role of a Child Life Specialist as part of a multi-disciplinary team in the hospital setting. The presentation will describe how a Child Life Specialist helps children and families cope and adjust to a new diagnosis, understand the hospital environment, and provide support during end of life support.
